I interviewed Mrs. Hogan on Quatal Canyon Road, during the onsite examination of the investigation. She stated that she was watering outside at her residence on [REDACTED], [REDACTED] when the airplane flew near her house. She didn't know where the airplane approached from but watched it as it circled around the house at about 500-800 feet above ground level. The engine sound was loud and was consistent. She further stated she saw the airplane fly eastbound, parallel to Quatal Canyon Road, and about 5 seconds after last seeing the airplane, dust then smoke rose high above a nearby mountain.
